

**DRAFT**

Mr. Charles H. Conrad  
Executive Director  
National Capital Planning Commission  
Washington, D.C. 20576

SUBJECT : Metropolitan Washington Council of Governments Reports:

(1) Water and Sewerage Plan and Program - 1971-1972

(2) Housing Policies and Programs for Metropolitan Washington - 1971

REFERENCE: NCPC File No. CP-06

Dear Mr. Conrad:

The Central Intelligence Agency is concerned with the problems, progress and solutions as presented in the subject plans and programs for ~~housing~~ water quality, ~~and~~ <sup>and housing</sup> sewerage in the Metropolitan Washington Area. We continue to support the objectives of the Metropolitan Council of Governments and the National Capital Planning Commission in any planning for adequate housing and water and sewerage facilities.

Findings and proposals set forth in the subject reports do not, at this time, effect any current plan or program of the Agency.

Housing of Agency low and moderate income employees is of continuing concern to us. The recognition of this problem by the Council of Governments and their progress toward its solution is encouraging especially in Fairfax County, Virginia in that the majority of Agency employees reside there.

DRAFT

SUBJECT: Metropolitan Washington Council of Governments Reports:

- (1) Water and Sewerage Plan and Program - 1971-1972
- (2) Housing Policies and Programs for Metropolitan Washington - 1971

The scope of work and progress of the Metropolitan, Washington Council of Governments is commendable and we look forward with interest to their forthcoming revised and updated 1972 reports. As in prior years we find them excellent reference as a compendium of their activity in the Metropolitan Area.

Sincerely,

John W. Coffey  
Deputy Director  
for Support
